WILLIAM J. AILA, JR.  
CHAIRPERSON

---

For immediate release: September 30, 2011

**DLNR'S HARBOR OFFICES ON OAHU TRANSITIONING TO  
MONDAY - FRIDAY WORKWEEK SCHEDULE**

**EFFECTIVE OCTOBER 1, 2011**

HONOLULU – The Department of Land and Natural Resources (DLNR) is informing the public that effective immediately, all Oahu District small boat harbors are transitioning to a Monday – Friday workweek schedule. These harbors previously worked on a Tuesday – Saturday schedule. The first weekend closure will occur Saturday, October 1, 2011.

“Our harbors on Oahu had previously opened on Saturdays for the convenience of our boaters,” said DLNR Chairperson William J. Aila, Jr. “But to ease logistical issues with harbor management, simplify maintenance contract negotiations, etc. we decided to make all the harbor schedules uniform.”

The modification in the workweek schedule is being implemented so that all DLNR harbors throughout the state are on the same schedule. All of the other DLNR harbors in the three other districts of Hawaii, Kauai and Maui have always been on the Monday-Friday workweek schedule.

Notices announcing the workweek schedule transition have been posted at all affected small boat harbors on Oahu since the beginning of September, 2011. Notice was also posted on the Division of Boating and Ocean Recreation website.
